

Knight Group

Warehouse & Logistics

With one of the widest ranges of precision strip in Europe, the Knight Group are able to supply most strip metal requirements from an extensive range of stock at our major facilities in the UK and Belgium. The warehouse racking at our expansive facility in Birmingham can accommodate a range of coil sizes up to 5 tonnes in weight and up to 73" (1855mm) in diameter. With the use of turret trucks, we can use the full height of the building and ensure a maximum level of stock can be stored. We use a computerized stock management system to ensure all incoming materials are accurately net weighed and given allocated positions, allowing our team real-time information on stock levels to ensure we can provide accurate responsive customer service.
